

Gleanings of ESTRO 2017

1990 ... 2017
years

[WOLF Medizintechnik GmbH](#)

05.05.- 09.05.2017

ESTRO 36,

The European Society for Radiotherapy & Oncology
Reed **Messe** Congress Center,
Vienna, Austria

we exhibited at the [industrial exhibition](#)

We thank all the visitors of our [booth no. 4370](#) for their interest.

Not only that conventional superficial and orthovoltage x-ray therapy remains an interesting alternative for the treatment of benign diseases and cancer – it is the better solution for radiation protection for the patient at best economic conditions.

New intra-operative solutions complete the range of x-ray photons possibilities.
